TECHNICAL SKILLS

JavaScript, Python, C#, HTML, CSS, Django, Node.js, React.js, jQuery, AJAX, ASP.NET Core, MySQL, MongoDB, Mongoose, Bootstrap, RESTful API, BCrypt, Pillow, AWS EC2, GitHub, Postman, GitBash, Photoshop, Adobe Illustrator.

TECHNICAL PROJECTS

The Missing Piece | Full-Stack Developer   2020
Social media app catered to the Autism community, allowing users affected by this disorder to connect.

- Built with Python, Django, and Bootstrap for a clean interface and Photoshop for app logo
- Implemented password hashing using Bcrypt and allowed created users to upload images via Pillow
- Users are able to connect with each other through postings, likes, friend requests, and direct messaging

BugTracker | Full-Stack Developer   2020
Bug tracking app that monitors reported software bugs for a smoother development process.

- Architected a full MERN stack application for a dynamic web interface and manageable database
- Incorporated Bcrypt, JWT, and Cookies for a secure and structured login authentication system
- Developers can stay updated with current defects during development and increases workflow management

RocketShip | Full-Stack Developer   2020
Interactive drinking card game for adults that gives a refreshing and fun user experience.

- Developed using C# and ASP.Net Core allowing multiple users to interact and participate with the app
- Integrated AJAX for asynchronous functions to enhance user experience with quick response times
- Designed user interface to enhance immersiveness using Bootstrap, jQuery, and HTML5

PROFESSIONAL EXPERIENCE

Artist | *MachStencil* | Westminster, CA   [2018-2020]

- Commissioned over 200+ pieces of artwork through Instagram and Etsy
- Designed custom art products using Photoshop, Adobe Illustrator, and Silhouette Studio
- Direct communication with clients to discuss styles and themes for desired satisfaction of product
- Spray painted artwork on canvas using acrylic paint and packaged each product for shipping

Behavioral Technician | *Hearts of ABA* | Fountain Valley, CA   [2019-2020]

- Conducted individual and group therapy sessions for outpatient clients ranging from ages 2 to 16
- Utilized theoretical approaches to treatment such as cognitive behavioral therapy and narrative therapy
- Tracked all incoming patient information, intervention plans and clients responses to treatment

COMPLETED EDUCATION

Coding Dojo | *Full-Stack Developer Certificate* | Costa Mesa, CA   2020
- Immersive Full-Stack Training Program in Python, C#, and MERN
- Achieved highest honors "Triple Black Belts" showcasing advanced proficiency in each stack
- Won "Best Project" for The Missing Piece, for dedication to the special needs community

                                                                                          2020
California State University, Fullerton | *B.S. in Kinesiology* | Fullerton, CA
